

G.O.E.I.C - E.V.V.U

Quality policy

The primary mission of GOEIC EVVU is to support and promote, continuously and effectively all Egyptian companies and Manufacturers in the private and public sector, in their effort to validation and verification of environmental emissions measurement. Thus GOEIC EVVU contributes to the strengthening of the competitiveness of the Egyptian economy.

Through the structured way it operates, GOEIC EVVU ensures that it continuously satisfies the needs and expectations of its clients, effectively solves problems that may occur and provides high quality services, for the benefit of the national economy.

In order to achieve the above mentioned, the management of GOEIC EVVU commits itself to:

- The establishment of quality objectives.
- The provision of adequate resources for the management of quality.
- The implementation of a quality system, according to the requirements of the valid Standards.
- The regular review of the quality system.
- Establishment of annual impartiality meeting.

In parallel, all personnel of GOEIC EVVU are committed to:

- Contribute to the continuous implementation and maintenance of the quality system.
- Participate actively in its continual improvement.
